

ExpoCiencias Nacional 2024 Tabasco

GUIDE BOOK

From december 3rd to 7th, 2024

Nave 3 del Parque Tabasco Dora María, Villahermosa, Tabasco, México.

The National Network of Youth Activities in Science and Technology (LaREDMex), through the Olmeca University, in collaboration with the Municipality of Centro, the Government of the State of Tabasco, Tabasco Science and Technology Council, the Tabasco Conventions and Visitors Bureau (OCV), the UPAEP University, and the International Movement for Leisure Activities in Science and Technology in Latin America (MILSET AMLAT)

Welcome
the international participants.
to ExpoCiencias 2024 Tabasco

Welcome Messages

Great ideas have been prepared to celebrate the creativity that young people from all over Mexico and invited countries will present through their research, innovation and dissemination projects.

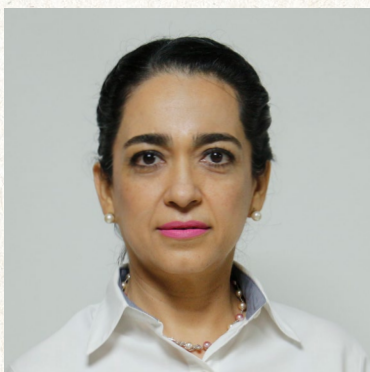

The National ExpoCiencias 2024, will being held in the City of Villahermosa, Tabasco, brings together hundreds of these efforts in a big exhibition hall of interchanges and learning, both for participants, visitors and organizers.

The team of the National Network of Youth Activities in Science and Technology in collaboration with Olmeca University and with the support of the Popular Autonomous University of the State of Puebla and the International Movement for Scientific and Technical Recreation MILSET will offer a «Memorable Experience», where hundreds of projects and educational institutions from all over the country will meet at the Tabasco Dora María Park and the Papagayo Interactive Museum, initiating a synergy that allows extending extensive work to promote and boost scientific vocations.

Thank you to everyone involved in the National ExpoCiencias 2024 for joining forces in the promotion of Scientific Culture, the great investment that our young people have needed always
Soon, the results will be evident and we will feel satisfied with having achieved our goals.

M.C. Roberto Hidalgo

LaREDMex General coordinator and MILSET President

It is an honour to welcome you, we feel ready to be the host of ExpoCiencias Nacional 2024 for the second time: Memorable experience.

This space of national and international stature is open for participants to demonstrate their knowledge, giving way to the transfer of knowledge, a great tool that allows us to progress as professionals, as a society and that, in addition, allows development for the common good.

We are proud and committed to continuing to contribute so that this event and its participants have a niche of opportunity and expression. Spreading knowledge that has results when it is shared, exposed, evaluated, improved and applied.

With the root of wisdom and Tabasco as Eden, here we will live a... Memorable experience.

Olga María Macías Guevara

Director of the National ExpoCiencias 2024 Tabasco

The hope of a better future is a panorama that science offers us every day, along with the perfect combination of youth and the desire to create and discover, all this leads us to believe in the omen of a better world, which Mexican children and youth will carry out. That is why ExpoCiencias Nacional Tabasco 2024 promotes vocation and sows this seed in the stages where dreams are created.

The discovery of the scientific vocation will provide the future development of knowledge through science, allowing us to find solutions to today's economic, social, and environmental challenges.

M.C. Atenea Vázquez Sánchez
International Affairs LaREDMex

About Milset

The Movement for Leisure Activities in Science and Technology (MILSET) is a non-governmental, non-profit and politically independent youth organization, which aims at developing scientific culture among young people through the organization of science and technology programmes, including science fairs, science camps, congresses and other activities of quality. MILSET was created during ESI 87, the first International Science Fair held in Quebec, Canada in 1987. Since then, regional offices were established in Latin America, Africa, Asia, Europe and North America.

About LaREDMex

The National network of Youth Activities in Science and Technology is a set of people and institutions that coordinate, promote and disseminate activities that allow spaces for participation that contribute to the formation of a scientific and technological culture in Mexican youth. The National Network of Youth Activities in Science and Technology is a Social Collective founded on March 25, 2004, which is hosted and supported by the Popular Autonomous University of the State of Puebla. Currently, there are more than 1,500 public and private educational institutions, preschool, basic, high school and higher level, that participate in the activities of LaREDMex.

ExpoCiencias Nacional 2024 Tabasco

Experiencia memorable

ExpoCiencias

ExpoSciences is the largest science and technology event in Mexico featuring the participation of children and youth, ranging from preschool to higher school students. It is a LaREDMex program recognized by MILSET, aimed at encouraging children and young people to engage in scientific and technical research, innovation, and dissemination projects.

Within ExpoSciences Mexico, a parallel program is designed for international participants from over 6 countries, who compete for recognition in various areas of participation.

The National Network of Youth Activities in Science and Technology (LaREDMex) comprises individuals and institutions dedicated to coordinating, promoting and disseminating activities that create opportunities for participation, thereby fostering a scientific and technological culture among Mexican children and youth. This year ExpoScience 2024 will be held at the marvelous Villahermosa city, the capital of the State of Tabasco, one of the most outstanding points of Mexico.

Venue Dora María Park

ExpoCiencias 2024 Tabasco will be held on the ship 3 of Tabasco Dora María Park, property designed for national and international fairs and exhibitions; Today it is one of the largest and most modern venues in the Mexican Republic. It has 56 hectares of land, 3 air-conditioned warehouses for exhibitions, an open-air theater with capacity for 9,500 seats ideal for shows, a rooster arena, a livestock stand, an artificial lake and ample parking. The event will be located in ship 3 of this venue, with a space of 6,446 m² equipped with high-power lamps, outdoor bathrooms, air conditioning, loading and unloading areas and all the necessary services so that your project is displayed in the best possible conditions and make the event a success.

Check the location at Nave 3
<https://maps.app.goo.gl/sCekCyVYZtGfG7sMA>

Host state **Tabasco**

Located in the Southeast of Mexico, Tabasco has many exciting places, which include the coast, archaeological sites, and natural landscapes, perfect for enjoying your vacation in this paradisiacal state. Immersed in the exuberant nature of its rivers, lagoons and imposing vegetation is the Greater Villahermosa, the capital and most populated city of the Mexican state of Tabasco, in addition to its culture and gastronomy, Villahermosa stands out as a business and administration centre of the oil industry in Southeast Mexico, abundant in natural resources and connection with cities from the southeast.

Like most of the state of Tabasco, the climate in Villahermosa is warm and tropical. The Temperature during spring can exceed 40° with high humidity, so we recommend that you bring a raincoat and a light jacket and mosquito repellent on the days of the event.

Arrivals

International Airport Carlos Rovirosa Pérez will be the meeting point of the international delegations. Check location at Carlos Rovirosa Pérez International Airport.

Flight itinerary:

Arrival: We ask the international participants to arrive on December 3th at the International Airport Carlos Rovirosa Pérez.

Departure: International delegations can depart on December 6th or December 7th before midday.

Important: Flight itinerary should be sent before November 9th.

Check location at:

<https://g.co/kgs/eNFmFuP>

Host Hotel

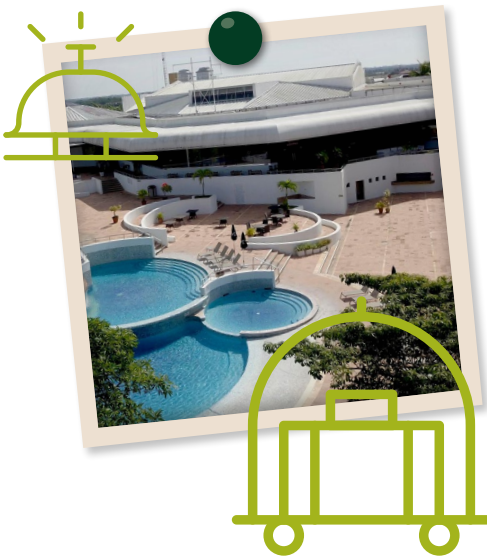

All our international participants will be receiving and hosted at the Holiday Inn Villahermosa Aeropuerto.

For more information, you can check out the Google link: Holiday Inn Villahermosa Aeropuerto.

Address: Carretera Federal Villahermosa-Macuspana Km 12 + 740.5 Ranchería La Palma, 86275 Villahermosa, Tabasco

Phone: 993 313 6800

Website: <https://www.ihg.com/holidayinn/hotels/us/es/belvidere/vsadg/hotel/detail>

Your stay includes:

- Accommodation (4 nights) in double rooms
 - Check-In: Tuesday, December 3rd
 - Check-Out: Saturday, December 7th
- Participant Kit
- Transportation during the event
- Gala dinner on December 4th.

Project set up

By regulation, the installation of the projects must be carried out only on December 3 at the registration times and the projects must be installed in their stands completely at **18:30 p.m.**

All projects will have a **110-volt** two-contact socket and as a recommendation we can suggest you bring some reinforced extension, but not a multi-contact. In case of omitting this recommendation, the staff of the «Ship 3, Dora María Park, Villahermosa» will apply an economic sanction.

In Mexico the connection type is 127V/60Hz; so, we ask you to bring your adapters for the connectors of your appliances, the plugs and sockets must be type A or type B.

Important: The Organizing Committee will not provide any type of material to carry out the presentation of the project (computers, projectors, electrical extensions, etc.) Do not forget to bring with you all the necessary materials for the installation and presentation of the project; this is the responsibility of each participant.

Participants must respect the spaces assigned to each project and **may not change their place** due to the distribution through labels that has been made for the Evaluation Committee.

In addition, for no reason, they **may take furniture or attachments from** the adjoining stands, if they do so the organizing committee will determine the sanction for said action. Participants can stick their posters, tarpaulins or cardboard on the stand, as long as they do not damage the integrity of the stand, since if it turns out to be damaged or mistreated, they will be assigned an economic penalty. It is recommended to use Pritt tak, magnets (in case the poster is light) or butterfly clips (in case it is heavy canvases), it is **forbidden to use adhesive tapes or glues of industrial type** (cinnamon tape, metallic, diurex, Masking tape).

Items allowed
to hold the tarp or poster

Items NOT allowed
to hold the tarp or poster

In order not to interfere with the presentations and out of respect for the projects and their exhibitions, loud music should not be heard. In case of omitting this indication, the staff of the venue and the Organizing Committee will make a wake-up call, and in case of reoffending, the type of sanction for said action will be evaluated.

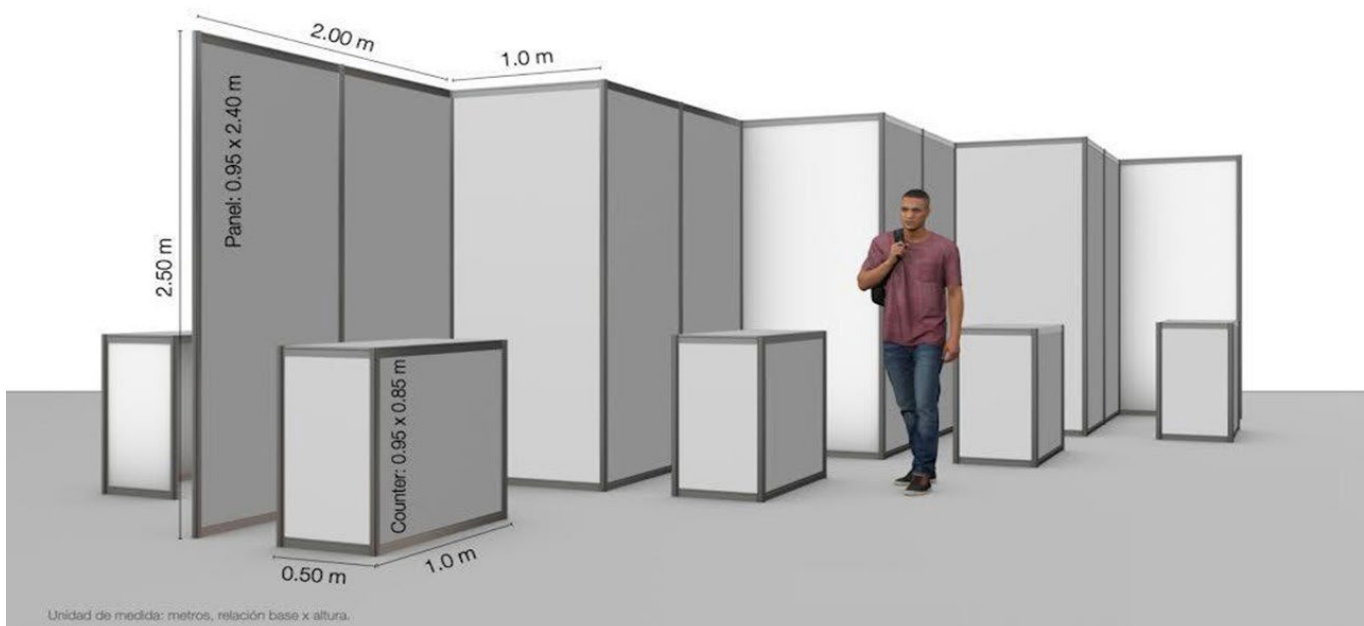

For safety, it is very important not to leave the stand alone at any time and not to leave in sight things that can be easily misplaced (laser pointers, laptops, photographic or video cameras, etc.). To have access to the facilities and all events, participants must wear their ExpoSciences badge at all times, as an identification element. **(There will be no replenishment).**

Presentation of projects

All projects must be ready and their speakers must be present at the exhibition hours on **Wednesday December 4th from 10:30 to 14:00 h and Thursday December 5th from 12:00 to 14:00 h**, since the exhibitions and the evaluation of the projects will begin punctually, which is why at least one participant must remain at the assigned stand, It is worth mentioning that the exhibition will be open to the general public and the evaluation committee.

Each participating project will have a 2x 1 stand type L

- Counter
- Two chairs
- One contact with double entry
- Project key

Poster

| <p>Hypothesis Possible answer / solution to the problem using «IF» (cause) and «THEN» (effect).</p> | | | | |

****Although the design is free, we recommend measurements of 120 cm x 90 cm**

Project evaluation

As mentioned in the call, the competition ages are from 15 to 25 years, all those projects whose participants do not meet this age criterion may participate only as a demonstrative.

The evaluation shall consist on a face-to-face assessment.

On the face to face assessment the members of the Evaluation Committee will physically visit the stands where the participants will present their projects.

ExpoCiencias will also be open to the general public during those hours. The Evaluation Committee is composed of professionals in the area in which the project is registered. Projects will be qualified under the following criteria:

| 1 | 2 | 3 | 4 | 5 |
|----------------|--------------|-----------------|------------|-----------|
| Not Acceptable | Insufficient | Must be improve | Acceptable | Excellent |

Each project will be evaluated by professionals and the arithmetic mean of these evaluations will be the final grade. In the event that any of the evaluators cited and assigned for a certain schedule does not show up, a tenured evaluator will be appointed who will have all the authority to issue the final grade of the project.

| What is rated? | What is not rated? |
|---|---|
| The work and effort to appear in the exhibition | The origins and history of the exhibitor (the curriculum is not decisive) |
| The information shown and the attachment to scientific concepts | The money invested in the project |
| The quality of the project's contributions to its field | Differences between exhibitor and evaluator paradigms |
| The scientific and technical skills acquired | The visual impact of the exhibition material and the amount of technical resources is not decisive |
| The contribution of the topic to generate interest | The spectacular nature of the exhibition or the prestige of the institution that supports said presentation |

Cultural event

During the ExpoCiencias Nacional Tabasco 2024, the «Cultural Afternoon» will be held, this is an event where foreign participants will be the star of the night, as they will be able to show something typical of their country to others.

Presentations must include singing, playing an instrument, a presentation teaching words or phrases in other languages, or a dance. Political or tourist videos or national anthems will not be accepted.

Additionally, you are invited to bring some objects to share with the rest of the participants (coins, pins, flags, typical sweets, etc.).

The event will take place on Thursday, December 5, 2024 from 6:00-9:00 pm in Nave 3 Parque Tabasco Dora María

International presentations must be a maximum of 5 minutes per country, and in order to participate, it is essential to receive your registrations through the link:

<https://form.jotform.com/242668571672871>

The deadline to fill out the form is November 20th, 2024, after this date it will be impossible to add anything to the program.

Exchange houses

In Mexico the official currency is the Mexican Peso (MXN) whose current value corresponds to 20.00 MXN = 1 USD approximately, the denomination consist of coins of 50 centavos, 1, 2, 5 and 10 pesos, while in Banknotes the denomination is: 20, 50, 100, 200, 500 and 1000 .

We recommend you to change each of your currencies to Mexican Pesos within the same airports in your countries or failing to US Dollars (USD) and later in Mexico to be able to make the change to MXN, since other types of currencies are more complicated to change in Tabasco.

Below we list several Exchange Houses near the Tabasco Dora María park, ordered from the closet to the farthest one, where you can make the change from Dollars to Mexican Pesos.

Extra activities

Tour city

Tabasco, located in the southeast of Mexico, is a state characterized by its exuberant biodiversity, mighty rivers and a warm and humid tropical climate. Known as «land of the Olmecs», it has a rich cultural heritage in its gastronomy, featuring dishes like pejelagarto and chocolate. The capital, Villahermosa, is home to important archaeological sites and museums celebrating its pre-Hispanic history.

La Venta Museum Park in Villahermosa, Tabasco, is a place that houses Olmec sculptures and a variety of local fauna. Walking among the sculptures is a great way to learn about the history of the region.

The Plaza de Armas in Villahermosa, Tabasco, is the heart of the city's historic center and an important meeting point for locals and visitors. You can admire the architecture of iconic buildings, enjoy green spaces, and experience festivals and cultural events. There are several restaurants nearby where you can sample the delicious cuisine of Tabasco. It's an ideal place for taking photographs.

The Papagayo Interactive Museum, located in Villahermosa, Tabasco, is a space designed for education and fun, especially aimed at children and families.

The Tomás Garrido Canabal Park, located in Villahermosa, Tabasco, is a beautiful green space that provides a breath of fresh air from urban life and is ideal for relaxation and outdoor activities, as well as recreational activities, natural areas, cultural events, and boat rides.

The Yumká Park, located in Tabasco, is an eco park and zoo that offers visitors a unique experience of contact with nature and wildlife. It houses a wide variety of native flora and fauna from the region. The park features trails that allow exploration on foot or in safari vehicles. It also has recreational areas and interactive activities.

CICOM zone
The Olmec and Mayan Culture Research Center is a cultural complex with more than 30 years of having been built, this center brings together the most important items of two of the most valuable cultures in Mexico: the Olmec and Mayan cultures.

This center has various facilities such as a library, gallery, educational center, research center, art room and theater that will allow the user to participate in cultural, educational and research activities.

In 2018 this cultural complex was complemented with a cultural corridor where you can find new areas such as a craft trading area, a literacy plaza, a park of the senses, a labyrinth, an auditorium, a path and a viewpoint.

Address: Av. Carlos Pellicer Cámara s/n , Col. Villahermosa Centro, C.P. 86000, Villahermosa, Tabasco

La Venta

This museum houses one of the largest collections of monumental pieces belonging to the Olmec culture, the first civilization of Mesoamerica. This site was designed, organized and created by the Tabasco poet Carlos Pellicer Cámara, and inaugurated on March 4, 1958. It has a space of 6.5 hectares divided into two areas, the archaeological and the zoological.

During the tour, visitors will be able to appreciate animal species native to this tropical area, as well as pre-Hispanic monuments such as the world-famous «colossal heads». During the visit, users will also be able to participate in activities such as children's workshops, exhibitions, conferences, talks, and visit the library.

Address: Adolfo Ruiz Cortines Avenue s/n, Col. Jesus Garcia, Villahermosa, Tabasco, Mexico.
